

The Future of Events is HYBRID

An Intelligent Platform For Managing Your In-Person and Virtual Experiences

One Event | Two Experiences | One Event Management Platform

Eventsforce can help you run successful hybrid meetings and events that are both engaging and personal. Reach out to more people, blend virtual and on-site experiences, and manage ALL your event attendees on one platform.

Engage Your Attendees. Wherever They Are.

- ❖ Deliver exceptional hybrid experiences with intelligent tools that manage ALL your virtual and on-site attendees on one platform
- ❖ Personalise the event experience for both audiences – from separate invitations, registration journeys, pricing & promotions
- ❖ Host mixed sessions or build separate programs for your virtual and in-person attendees. You decide who has access to what
- ❖ On-site and virtual attendees can participate in the same polls and Q&As
- ❖ Bring your two audiences together through intelligent matchmaking and meeting tools

Grow Your Hybrid Events with Future- Proof Technology

- ❖ Manage and promote ALL your virtual, in-person and hybrid events on one platform – have the flexibility you need if your plans change
- ❖ Use powerful registration and group ticketing tools built to manage hybrid event attendees
- ❖ Make last-minute changes on the go – automatic synching on apps and VCD virtual event platform ensure ALL attendees get all the latest event info

- ❖ Create more blended engagement opportunities for sponsors and exhibitors with networking, advertising and on-demand content
- ❖ Grow your events and improve decision making – track key metrics in real-time and create reports on all your virtual and on-site attendees

Return Safely to Your In-Person Events

- Create a safe experience for your on-site attendees with contactless event check-in
- People can check-in to events themselves via mobile phones and a quick QR code scan
- Print badges on-site or go completely contactless
- Avoid crowds around registration desks and manage walk-ins more effectively
- Get real-time insight on where people at your event – track registrations vs attendance, session check-ins and room capacities

“

Eventsforce helped us adapt quickly to changing government guidelines. We were all set to go with our hybrid event but new restrictions around Covid-19 meant we had to cancel the in-person element and move the whole thing online. Having an integrated platform meant we could do this with no issues in a very short time.

Christine Lawson, Managing Director at Eventage
